

SAVE THE DATE CORRIGENDUM! ~~09-10 NOVEMBER 2020~~ - WEBCONFERENCE

Gearing up towards European Digital Innovation Hubs

The event “Gearing up towards European Digital Innovation Hubs conference” is an opportunity for DIHs and future EDIHs to meet, nurture their networks, share ideas and learn about the new EU policy developments on supporting the green and digital transformation.

Together, the [European Commission](#), [Luxinnovation](#), the [Luxembourg Ministry of the Economy](#) and [DIHnet](#), we will organise this event to provide the latest and the most added-value information for the future EDIHs. We want this conference to be the closest possible to the future EDIH call. With the negotiations on the next Multi-annual Financial Frameworks being delayed, and with them the negotiations on the Digital Europe Programme and the launch of the EDIH call, the conference, formerly planned on November the 9th and 10th 2020, is postponed to mid-January 2021.

The final dates will be shared soon.
